Pharmacology and Therapeutics	

Nursing process serves as the framework in the nursing care of individuals, families, population groups and communities in various stages of development in health care setting. The focus of nursing care is the promotion of health, prevention of illness, curative and rehabilitative aspects of care, alleviation of suffering and when recovery is not possible, towards a peaceful death.

The examination will test the following program outcomes for the Bachelor of Science in Nursing which is equivalent to PQF level 6:

1. Apply knowledge of physical, social, natural and health sciences and humanities in the practice of nursing;
2. Perform safe, appropriate and holistic care to individuals utilizing the nursing process;
3. Apply guidelines and principles of evidence-based practice in the delivery of care;
4. Practice nursing in accordance with existing laws, legal, ethical and moral principles;
5. Communicate effectively in speaking, writing and presenting using culturally appropriate language;
6. Report/document client care accurately and comprehensively;
7. Collaborate effectively with inter-, intra-, and multi-disciplinary and multi-cultural teams;
8. Practice beginning management and leadership skills;
9. Apply techno-intelligent care systems in health care delivery;
10. Uphold the nursing core values in the practice of the profession.
